PROFILE

A highly motivated Information Technology student at Esa Unggul University, Jakarta. I possess a solid foundation in web development, with technical proficiency in HTML, CSS, and Tailwind CSS, alongside modern frameworks such as React, Next.js, and Laravel. I am experienced in managing relational databases using MySQL and PostgreSQL. I am a fast learner with a proven ability to master new core technologies within a 2-month timeframe, and I am eager to contribute my skills to a professional development team.
